European Commission
B-1049 Brussels

This guidance document aims to assist economic operators and other relevant stakeholders in preparing the implementation of the data requirements for the digital Batteries Passport (BP). It sets out the data points to be provided for electric vehicle (EV) batteries, light means of transport (LMT) batteries and industrial batteries, and identifies where information is mandatory, optional, applicable only in certain cases, or does not have to be filled/displayed as of February 2027. It should be read together with the applicable provisions of Regulation (EU) 2023/1542 and any relevant delegated or implementing acts.

The document is intended to support a common understanding of the information to be made available in the BP and to promote a consistent and workable approach across the batteries value chain by clarifying, to the extent possible, how the different data requirements may be understood in practice. In doing so, it is meant to facilitate dialogue among stakeholders, reduce unnecessary divergence in implementation approaches, and support a smooth and consistent rollout of the Batteries Passport.

By presenting the relevant data points in a structured and accessible manner, it seeks to help stakeholders identify the information that may need to be collected, assessed and made available, and to support early alignment of internal processes, data systems and reporting practices. The following table is structured around five elements: (1) the data point number, (2) the data point name, (3) the legal source of the data point in the Batteries Regulation, and (4)-(6) the applicability of the data point for EV, LMT and industrial batteries respectively. The applicability columns indicate whether a data point is mandatory, optional, applicable only in certain cases, or does not have to be filled/displayed as of February 2027. BR refers to REGULATION (EU) 2023/1542 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 12 July 2023 concerning batteries and waste batteries, amending Directive 2008/98/EC and Regulation (EU) 2019/1020 and repealing Directive 2006/66/EC[1]. For the purposes of this document, EV batteries, LMT batteries and industrial batteries correspond to the battery categories defined in Article 3 of the Batteries Regulation.

This guidance document may be further developed over time to provide additional detail and practical clarification. In particular, future updates may include further information on the definitions of the individual data points, as well as indications on possible measuring units or formats to be used when reporting those data points, with a view to supporting greater clarity, comparability and consistency in the information made available through the Batteries Passport. This document should not be considered as representative of the European Commission's official position. The information in the text does not extend in any way the rights and obligations deriving from applicable legislation nor introduce any additional requirement. The expressed views are not authoritative

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
1.	Unique identifier [unique product identifier]	BR Art 3(1)(66)	BR Article 77 (3)	Public	Mandatory	Mandatory	Mandatory
2.	Identity of who is registering and/or is responsible for the battery passport [name]	BR Art 77(4)	BR Article 77 (3)	Public	Mandatory	Mandatory	Mandatory
3.	Manufacturer name, registered trade name or registered trademark [at least one of]	BR Art 3(1)(33) (manufacturer)	BR Annex VI A (1)	Public	Mandatory	Mandatory	Mandatory
4.	Manufacturer single contact postal address	N/A	BR Annex VI A (1)	Public	Mandatory	Mandatory	Mandatory
5.	If available, manufacturer web and email address [both optional]	N/A	BR Annex VI A (1)	Public	Optional, to be filled if such data is available	Optional, to be filled if such data is available	Optional, to be filled if such data is available
6.	Battery category [3-code list]	BR Art 3(1)(11), (13), and (14)	BR Annex VI A (2)	Public	Mandatory	Mandatory	Mandatory
7.	Model identification and batch or serial number, or product number or another element allowing their identification [at least one of]	N/A	BR Annex VI A (2)	Public	Mandatory	Mandatory	Mandatory
8.	The place of manufacture (geographical location of a battery manufacturing plant)	N/A	BR Annex VI A (3)	Public	Mandatory	Mandatory	Mandatory

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
	[town, region, country/jurisdiction]						
9.	The date of manufacturing [month and year]	N/A	BR Annex VI A (4)	Public	Mandatory	Mandatory	Mandatory
10.	The weight [unit[2] kg]	N/A	BR Annex VI A (5)	Public	Mandatory	Mandatory	Mandatory
11.	The capacity [unit Ah]	N/A	BR Annex VI A (6)	Public	Mandatory	Mandatory	Mandatory
12.	The chemistry [code list][3]	N/A	BR Annex VI A (7)	Public	Mandatory	Mandatory	Mandatory
13.	The hazardous substances present in the battery, other than mercury, cadmium or lead [free text]	BR Art 3(1)(52)	BR Annex VI A (8)	Public	Mandatory	Mandatory	Mandatory
14.	Usable extinguishing agent [free text]	N/A	BR Annex VI A (9)	Public	Mandatory	Mandatory	Mandatory
15.	Critical raw materials present in the battery in a concentration of more than 0,1 % weight by weight [code	List of raw materials in Annex X (1)	BR Annex VI A (10)	Public	Mandatory	Mandatory	Mandatory

[2] When « unit » is mentioned in the rest of this document, the system will allow also to select multiples or submultiples of that measurement unit.

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
	list]						
16.	The material composition of the battery, including its chemistry, hazardous substances present in the battery, other than mercury, cadmium or lead, and critical raw materials present in the battery	BR Art 3(1)(52); list of raw materials in Annex X (1)	BR Annex XIII 1 (b)	Public	Not to be filled/displayed - repetition, same data already required under previous data points	Not to be filled/displayed - repetition, same data already required under previous data points	Not to be filled/displayed - repetition, same data already required under previous data points
17.	The carbon footprint declaration	BR Art 3(1)(51) for carbon footprint	BR Annex XIII 1 (c)	Public	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act
18.	The carbon footprint label	BR Art 3(1)(51) for carbon footprint	BR Annex XIII 1 (c)	Public	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act	Not to be filled/displayed as of February 2027- format still to be specified in the upcoming implementing act
19.	Information on responsible sourcing as indicated in the report on battery due diligence policy referred to in Article 52(3)	N/A	BR Annex XIII 1 (d)	Public	Not to be filled/displayed as of February 2027- as envisaged by Article 48(1), required from August 2027	Not to be filled/displayed as of February 2027- as envisaged by Article 48(1), required from August 2027	Not to be filled/displayed as of February 2027- as envisaged by Article 48(1), required from August 2027

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
20.	Percentage share of cobalt that is present in active materials and that has been recovered from battery manufacturing waste or post-consumer waste [%]	BR Art 3(1)(5) for active material	BR Annex XIII 1 (e)	Public	Not to be filled/displayed as of February 2027- to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027- to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027- to be applied as envisaged by Article 8
21.	Percentage share of lithium that is present in active materials and that has been recovered from battery manufacturing waste or post-consumer waste [%]	BR Art 3(1)(5) for active material and 3(1)(51) for battery manufacturing waste	BR Annex XIII 1 (e)	Public	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027- to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027- to be applied as envisaged by Article 8
22.	Percentage share of nickel that is present in active materials and that has been recovered from battery manufacturing waste or post-consumer waste [%]	BR Art 3(1)(5) for active material and 3(1)(51) for battery manufacturing waste	BR Annex XIII 1 (e)	Public	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8
23.	The percentage share of lead that is present in the battery and that has been recovered from waste [%]	N/A	BR Annex XIII 1 (e)	Public	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8	Not to be filled/displayed as of February 2027 - to be applied as envisaged by Article 8
24.	The share of renewable content [%]	N/A	BR Annex	Public	Mandatory	Mandatory	Mandatory

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
			XIII 1 (f)				
25.	Rated capacity [unit Ah]	N/A	BR Annex XIII 1 (g)	Public	Not to be filled/displayed - repetition, same data required under data point 11	Not to be filled/displayed - repetition, same data required under data point 11	Not to be filled/displayed - repetition, same data required under data point 11
26.	Minimal voltage, with temperature range when relevant [unit V, optional unit °C]	N/A	BR Annex XIII 1 (h)	Public	Mandatory	Mandatory	Mandatory
27.	Nominal voltage, with temperature range when relevant [unit V, optional unit °C]	N/A	BR Annex XIII 1 (h)	Public	Mandatory	Mandatory	Mandatory
28.	Maximum voltage, with temperature range when relevant [unit V, optional unit °C]	N/A	BR Annex XIII 1 (h)	Public	Mandatory	Mandatory	Mandatory
29.	Original power capability [unit W]	BR Annex IV (3) for “power” of the batteries in scope of the Annex	BR Annex XIII 1 (i)	Public	Mandatory	Mandatory	Mandatory
30.	Power limits, with temperature range when relevant [unit W, optionally	BR Annex IV (3) for “power” of	BR Annex XIII 1 (i)	Public	Mandatory	Mandatory	Mandatory

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
	min_T °C … max_T °C]	the batteries in scope of the Annex					
31.	Expected battery lifetime expressed in cycles [in number]	BR Art 3(1)(59) for "lifetime"	BR Annex XIII 1 (j)	Public	Mandatory	Mandatory	Only applicable for some industrial batteries where lifetime can be expressed in cycles
32.	Reference test used for expected battery lifetime expressed in cycles [free text]	BR Art 3(1)(59) for "lifetime"	BR Annex XIII 1 (j)	Public	Mandatory	Mandatory	Only applicable for some industrial batteries where lifetime can be expressed in cycles
33.	Capacity threshold for exhaustion [%]	N/A	BR Annex XIII 1 (k)	Public	Mandatory	Not to be filled/displayed	Not to be filled/displayed
34.	Temperature range the battery can withstand when not in use (reference test) [min_T °C … max_T °C + free text]	N/A	BR Annex XIII 1 (l)	Public	Mandatory	Mandatory	Mandatory
35.	Period for which the commercial warranty for the calendar life applies [months]	N/A	BR Annex XIII 1 (m)	Public	If applicable (if commercial warranty envisaged)	If applicable (if commercial warranty envisaged)	If applicable (if commercial warranty envisaged)

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
36.	Initial round trip energy efficiency [%]	N/A	BR Annex XIII 1 (n)	Public	Mandatory	Mandatory	Only applicable for some industrial batteries
37.	Round trip energy efficiency at 50 % of cycle-life [%]	BR Annex II 2(e) for life cycle for the calculation of carbon footprint	BR Annex XIII 1 (n)	Public	Mandatory	Mandatory	Only applicable for some industrial batteries
38.	Internal battery cell resistance [unit Ω] Internal battery pack resistance [unit Ω]	N/A	BR Annex XIII 1 (o)	Public	Mandatory	Mandatory	Mandatory
39.	Charge C-rate of relevant cycle-life test [number]	N/A	BR Annex XIII 1 (p)	Public	Mandatory	Mandatory	Only applicable for some industrial batteries
40.	Discharge C-rate of relevant cycle-life test [number]	N/A	BR Annex XIII 1 (p)	Public	Optional	Optional	Optional
41.	The marking requirements laid down in Article 13(4) [Yes/No]	N/A	BR Annex XIII 1 (q)	Public	Mandatory	Mandatory	Mandatory
42.	The marking requirements laid down in Article 13(5) [code list]	N/A	BR Annex XIII 1 (q)	Public	Cadmium or lead symbol if applicable	Cadmium or lead symbol if applicable	Cadmium or lead symbol if applicable
43.	The EU declaration of conformity referred to in	N/A	BR Annex	Public	Mandatory	Mandatory	Mandatory

Item	Data point name (clarifications stated in square brackets [])	As defined in	Data point source	Type of information	Electric vehicles (EV)	Light means of transport (LMT)	Industrial
	Article 18 [a web link]		XIII 1 (r)				
44.	The information regarding the prevention and management of waste batteries laid down in Article 74(1), points (a) to (f) [multiple free text]	N/A	BR Annex XIII 1 (s)	Public	Mandatory	Mandatory	Mandatory
45.	Clear, understandable and readable instructions for use in a format that makes it possible to print, download and save them on an electronic device so that the user can access them at all times, in particular during a breakdown of the battery [TBC]	N/A	BR Annex XIII 1 (t)	Public	Not to be filled/displayed as of February 2027 - application provisions on hold pending Omnibus adoption	Not to be filled/displayed as of February 2027 - application provisions on hold pending Omnibus adoption	Not to be filled/displayed as of February 2027 - application provisions on hold pending Omnibus adoption
46.	Detailed composition, including materials used in the cathode, anode and electrolyte [free text]	N/A	BR Annex XIII 2 (a)	Restricted: Only to persons with legitimate interests, notified bodies, MS authorities and COM	Mandatory	Mandatory	Mandatory

							system
67.	Information on the status of the battery, defined as 'original', 'repurposed', 're-used', 'remanufactured' or 'waste' [code list]	BR Art 3(1)(32) for "remanufacturing" and 3(2)(2)(a) for "waste"	BR Annex XIII 4 (c)	Restricted: Only to persons with legitimate interest (individual battery)	Mandatory	Mandatory	Mandatory
68.	The number of charging and discharging cycles [number]	N/A	BR Annex XIII 4 (d)	Restricted: Only to persons with legitimate interest (individual battery)	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used
69.	Negative events, such as accidents [multiple free texts]	N/A	BR Annex XIII 4 (d)	Restricted: Only to persons with legitimate interest (individual battery)	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used
70.	Periodically recorded information on the operating environmental conditions, including temperature [code list, histogram, related units]	N/A	BR Annex XIII 4 (d)	Restricted: Only to persons with legitimate interest (individual battery)	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used
71.	Periodically recorded information on the state of charge [histogram, %]	N/A	BR Annex XIII 4 (d)	Restricted: Only to persons with legitimate interest (individual battery)	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used	Applicable as soon as the battery starts to be used

Remarks:

A) The dynamic dimension of items 51 – 60 is to reflect that the parameters may need to be updated where there is a status change of the battery, e.g. repurposed or remanufactured.

B) Explanation remarks for column ‘type of information’:

1. The information referred relates to the battery model, except when explicitly stated otherwise.
2. Further clarifications on ‘persons with legitimate interest’ will be provided by the implementing regulation which will be adopted in line with the empowerment set in the Batteries Regulation.
